What Is Going On In the Business World.

NATIONAL BANKS SUSPEND.

The Louisville City Closes Its Doors; Also, One of the Largest in the Northwest-A Cheering Report Comes From Washington-Silver Refused at the United States Subtreasury in Chicago-Closed Banks Resume-Failures and Other Financial

LOUISVILLE, July 25.—The Louisville City National bank suspended payment at 1:15 o'clock yesterday. Its suspension was expected, as it has been weak for some time. William Pope, the teller of this bank, walked off one Saturday evening in March, 1889, with \$60,000 buttoned under his overcoat. He was accompanied by a prominent young society man, and though rewards were offered by the bank and the bondsmen they have never been heard

The City National has never recovered from this and other small losses that in the aggregate were considerable. It had a capital stook of \$400,000, a surplus of \$80,000 and undivided profits of \$20,000. Its individual deposits were over \$222,000 and yesterday its cash was reduced to \$14,000. Other banks declined to advance currency believing that the suspension could not be long

The bank owes comparatively little outside of its deposits and about \$100,-000 balance to other banks and has real estate valued at \$59,000. Its bills receivable amount \$865,000. The immediate cause of the failure was the heavy withdrawal of the country banks' balance. It is not likely that the City National will resume business.

The Kentucky National bank, which suspended Saturday, is in the hands of a bank examiner, with little prospect

of resuming business. The Kentucky Jeans company, with liabilities of \$50,000, assigned yester-

The financial situation is nervous, without any symptoms yet of a panic.

Strongest In the Northwest Closed.

TACOMA, July 25.—The Tacoma National bank, one of the strongest in the northwest, suspended. This bank, has been assisting other banks in the city for the past six mouths. ralled to Open.

Connersville, Ind. July 25.—The Citizens' bank, owned by ex-United States Treasurer J. N. Hustou, did not open on account of the stringency of the money market. All depositors will be paid in full. What effect the failure will have on business can not be fore-

Brighter at Portsmonth. PORTSMOUTH, O., July 25.—The Citizens' Savings bank, after being closed for four weeks, open its doors, 96 per cent of the creditors, representing \$340,-000, and 1,000 depositors agreeing ;to raise the assignment. Old depositors are flocking in, and confidence is returning in business circles.

NEW YORK BANKS.

Calls For Loans Not us Urgent as They Have Heen.

NEW YORK, July 25.—The banks re ported the financial situation as fairly easy, and to some extent better, inasmuch as the demands for accommodations were light.

From the demands received from Ohio and some other places for redis-counts, it is believed that the shipments of currency to those sections this week will be heavy. In many instances dur-ing the last few days gold has been shipped to the country instead of currency, and more will probably be sent. The banks asking for the accommodation are providing themselves against runs as the wave of distrust sweeps over their localities.

The shipments of currency by the banks to the interior amounted to \$1,-500,000. Of this sum \$400.000 was obtained at the subtreasury in exchange for large bills. Most of the money went to Cincinnati and Indianapolis. Some money went to Chicago and St. Louis.

BRIGHTER SKIES

Overhang the Financial World This Week.

WASHINGTON, Jully 25.—As viewed at the treasury department the week begins with brighter financial prospects. A number of the recently failed banks are taking the necessary steps to resume and Couptroller Eckels is lending them all the aid possible. He was notified yesterday the failed First Na-tional bank of Kendallville, Ind., aud and the failed Northern National bank of Big Rapids, Mich., would probably resume business this week.

The First Nutional bank of Santa Anna, Cal., which resumed business on Saturday after a short suspension, received in deposits \$12,000, while the withdrawal amounted to only \$6,000. This is regarded here as an evidence that confidence is being gradually restored on the Pacific coast.

SILVER PURCHASES.

The Full Quota Will Not Be Bought This Month.

WASHINGON, July 25.—Acting Mint Director Preston, in 'response to his of silver at \$0.6960 cents per ounce. There is no expectation of purchasing the full quots of 4,500,000 ounces of silver per month. Mr. Preston states the department, if it fail to purhase the full quots month, will not make the full create this month, will not make the full create the f counter offer, purchased 50,000 onnces

up the deficiency next month. That is if only 2,500,000 ounces of silver are purchased this month the department will not purchase the 2,000,000 ounces with the department with the deficiency of the deficiency short this month and the 4,500,000 ounces next month, the usual monthly

Each month's purchase will stand by itself and thus it may happen that at the end of the fiscal year the aggregate purchases, instead of being 54,000,000 ounces may be only half that amount. This is the construction placed upon

the Sherman laws to the requirements of silver purchases by Secretary Carlisle. As a consequence of short purchases, the amount of coin or Sherman notes issued against the silver bullion purchased under the law, will, of course be correspondingly less.

TOO MUCH ON HAND.

Silver Refused at the Subtreasury at Chicago.

CHICAGO, Nuly 25.—A notice was posted yesterday in the United States subtreasury to the effect that silver would not be received. During the day many employes of the banks brought in sacks of the white metal to get currency in exchange, but they had to shoulder their loads and go again, as they came. There is more silver lying around uncounted behind the rails of the subtreasury than the force cau handle. On every shelf and in piles on the floor in sacks filled with dollars and other coins, stacked up until there is hardly room to get about.

"We are unable to handle the big amount of silver we have on hand, said one of the officials, "and until it can be all counted and checked up we will not receive any more over the counter. For some time past great quantities of silver have been brought here by the banks to be exchanged for currency until the amount has become greater than we can handle, and we have had to call a temporary halt. This is all there is to the matter.

In a Receiver's Hands.

Synacuse, July 25.—The extensive manufacturing firm of Bradley & Company went into a receivership. The firm manufactured trip hammers, wagons and fancy carriages and filters. The buildings and plant are valued at \$500,000. The liabilities are about \$350,000. 000. The judge issued an order allowing the receiver to continue the manufacture and sale of the stock on hand.

Voluntarily Assigned.

Baltimore, July 25.—The Southern Electric company, one of the big enter-prises of this city, made a voluntary assignment to Morrill N. Packard. Failure to collect overdue accounts made it impossible for the company to meet its obligations. The assets of the concern are estimated at \$175,600; liabilities, \$190,000. Mr. Packard filed a bond for \$300,000.

In the Hands of a Sherlff. Cnicago, July 25.—Judgment was secured by the Coutinental National bank against Parkhurst & Wilkinson, iron merchants, for \$87,175.15. The sheriff took possession of the firm's business. The assets are estimated at \$1,000,000. It is believed the concern will be able to resume business as soon as the financial stringency relaxes.

HANLAN DEFEATED.

Gandaur Wins the Chumpionship Boat Race at Orlllia, Ont.

Omilia, July 25. - The Hanlan-Gaudaur championship boat race here yesterday attracted another large crowd. Betting during the day was mostly even, a little mouey changing hands at odds in favor of Gaudaur. Both men were in splendid condition. A stiff breeze prevailed all day and made the course rough at the turn.

The start was made at 6:04. Hanlon shot to the front like a flash and was soon leading by a full boat's length. Both men were rowing about 84 strokes

Hanlan kept in front for the first half mile where Gaudaur reduced the lead to a half boat length, and soon spurted by his opponent. When the turn was reached Gaudaur was leading by a boat length with Hanlan apparently out

Gaudaur increased his lead until within a quarter of a mile from the where he stopped rowing and his hand in response to the cheers of his friends and backers along the shore. He then made a magnificent spurt, and crossed the line an easy winner by seven lengths in 19:58. Hanlan finished 12 seconds behind.

Hanlan has notified the stockholders not to pay over the stake money, claiming that the course was changed, causing his defeat.

stuch-Wanted Man Caught. NEW YORK, July 25.—Giovann. Cavaelero, alias Juan Andreti, alias Juan Daodati, who is believed to be a celebrated European criminal, "wanted" in almost every big city in France. Italy and Spain, was arrested Saturday evening in this city. A stranger informed a policeman of the man's character when the officer laughingly told the informer to go punch the fellow and he would arrest both. The informer did as directed, and both men were taken into custody, one proving, as is believed, to be Cavaelero.

Killed the Whole Family.

TEXARKANA, Ark., July 25.—Allen E. Jones, living near here, attempted to kill his wife and three children, and then committed suicide by hanging. The family will die. It is supposed that the murders were committed while Jones was temporarily insane.

Killed By a Fall. Massillon, O., July 25.—At the village of Navarre, five miles south of here, Sunday night, the dead body of Ira Hodgins, 14, the only son of Joseph Hodgins, was found on the roadside beside his bicycle, dead, with his neck broken. There does not appear to be any doubt that the lad was thrown from his wheel and alighted on his head. The coroner has gone down to investigate.

Crisis Passect at Mliwaukee.

MILWAUKEE, July 25.-There was a good deal of nervousness in banking circles and runs developed on a number of banks. But toward noon things quieted down and the alarm of depositors is rapidly subsiding. It now looks as if the crisis has passed. GUITEAU'S REVOLVER.

The Whereabouts of the Deadly Weapon at Present Unknown.

WASHINGTON, July 25.—The whereabouts of the pistol with which Guiteau shot President Garfield, which his disappeared, is under discussion. Mr. Donovan, who was property clerk of the police department at the time of the tragedy, has made a statement of his efforts to recover the weapon from Colonel George B. Corkhill, the district attorney, who carried it away from the station house after Guiteau's arrest, in which he says:

"I called on Colonel Corkhill the following day and several times afterward, requesting and demanding that the revolver be placed in my charge, but the colonel stated that it would remain in his safe until after the trial, and that then it would be returned to the police department. After the trial and conviction of the assassin I resumed my efforts to have the revolver placed where it should be, but without success. Colonel Corkhill stated that for the present it would remain in his

"Finding that the district attorney would not return the revolver, I made a statement of all the facts and submitted it to Commissioner Thomas P. Morgan, that gentleman being then in charge of the police department, with the request that such action be taken as would compel compliance with the law. I understand that my communication was referred to the chief justice of the district supreme court.

"About a week after I received an order of the court to turn over the revolver to Colonel Corkhill, and on the back of the order was Colonel Corkhill's receipt for the same. I respectfully returned the order to the court, not complied with, for the reason that I was unable to do so, as the property mentioned was not then, nor never had been in my custody.'
"I also uotified Colonel Corkhill that

I had returned his receipt to the court, as I could not accept a receipt for property never in my custody. as to do so I would have to make false entry on the property books. That closed my efforts to get charge of the revolver."

The police department officials are

making an effort to secure the weapon and add it to the museum of such articles already collected and on exhibition.

DENOUNCED BY A JUDGE.

The South Carolina Liquor Law an Abounination.

COLUMBIA, S. C., July 25.-Judge Hudson's decision refusing an order of search and seizure in the case of J. M. James, a Darlington salooukeeper, reported for selling liquor, provokes the adminstration's local organ to say that the judge ought to be impeached and to characterize him as the liquor men's best friend.

In discussing the section of the dis-pensary act authorizing an officer to search a man's premises and confiscate his personal property, Judge Hudson

"If the construction of the act con-tended for by the plaintiff be correct, or if the act be enforced as its terms demand, then no citizen of the land, high or low, in city, town or county, or whatever calling, trade or business, is safe from unreasonable searches or seizures: and if, perchance, he shall keep wives or liquors in his place of business or residence for private use of himself, family and friends, the liquors and all personal prop-erty are liable to seizure, to abide the results of the indictment or an action for abating nuisance. Each and every citizen is thus placed at the mercy of the envy, malice and revenge of secret spy or hostile neighbor. The dangerous consequences of such liceuse and immunity given to the mulicious prosecutor are too apparent to call for comment.

assummed the Professor. GREENCASTLE, Ind., July 25.—Professor Langdon of Depauw university was assaulted by Frank O'Hair, one of the students who failed of graduation because of irregularity in their examination. The professor was knocked down on the street near his residence, after being accused by O'Hair of circulating lying statements in reference to the transaction. The professor's assailant was accompanied by another stu-dent, who claims that the assault was in no way premeditated.

Distillery Horned.

LEXINGTON, Ky., July 25.—J. W. Masters' distillery was burned at Valley View, Ky. Loss, \$5,000; insurance, \$2,500. The fire is supposed to be the work of an incendiary. A very peculiar incident is the fact that Musters had just returned from a campmeeting where he heard Sam Jones pronounce an eternal curse against whisky and the makers of it. None of the warehouses were near the distillery and were not touched by the fire.

The Boat Leaked.

GREAT BARRINGTON, Mass., July 25.— Augustus Hamlin, his wife, Mary, Eugene Peltier and Louis Victor and Rosa Labbe wend rowing on Harmon's pond. The boat leaked. ### TURKISH OUTRAGE.

An American Lady Missionary Assaulted.

BRUTALLY BEATEN AND BRUISED

Her Assallant an Unknown Man and the Weapon Used Was a Heavy Club-The Affair Reported to the State Department at Washington.

New York, July 25.—Letters just received by the Presbyterian board of foreign missions in this city, contains news of an unprovoked attack upon Miss Anna Melton, an American missionary, who was stationed at the time of the outrage in a little village among the Nestorian mountains in Turkey. Miss Melton escaped with her life, but was mercilessly benten and bruised.

The letters containing the story of the assault are dated from Amadia, Turkey, June 14 last. A little more than a week before that date, the Rev. E. W. McDowell, with his family, in company of Miss Melton, left Mosul, in West Persia to go to Amadia, Turkey. Having reached their destination in safety Miss Melton proposed to continue on to the mountain village of Duree, some miles away. She went unattended save by her servant and a native preacher.

On the night of her arrival, she pitched her tent on the roof of a house in the village, as is the custom in that country. The preacher slept on the roof, about 10 feet from her tent and the members of the family owning the house also occupied places not far

In the middle of the night she was awakened by the appearance of a man in her tent. The intruder was in her tent. The intruder was armed with a heavy stick, with which he began to strike the helpless woman, who screamed loudly for help. No one came to her aid, however, and she was compelled to defend herself singlehanded. In some way she was able to break away from her assailant, and ran bleeding from the tent. The man followed, but in the darkness missed his footing and fell to the ground.

No trace could Miss Melton find of the preacher or of the others who occupied the roof with her. They had all fied in terror. She was brutally cut about the head and body.

Mr. McDowell laid the case before the authorities but was unable to obtain but a small measure of satisfaction. They said that Miss Melton should not have gone there comparatively un-

THE New York World is ferninst silver. It says: "We have tried free coinage, demonetization, restricted but liberal coinage and forced tiovernment purchases of silver, and under every condition silver went down with increased product and greater ease of production. Why has not experience settled the matter?"

MURAT HALSTEAD is again raving and ranting about the South. He rehashes over a column of his old chestnuts in Monday's Commercial Gazette. Yes the South is "to the front" just now. It's the most prosperous section of the country, probably, and its prosperity is increasing year after year. But Mr. Halstead should not become alarmed. The South's prosperity is benefiting the whole country.
